

Marching Band(-imals)

Printable Fortune Teller

This fortune teller may be included as a downloadable asset for a future expansion pack. But for now, you can print off a copy, fill in the fortune triangles and play with your friends*.

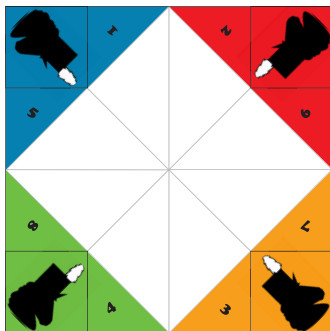

Instructions on how to fold and use the fortune teller are on the next page.

*Marching Band-imals LLC makes no guarantee to the accuracy of any fortune given using this device. Not to be used for Hoodoo or crafting curses.

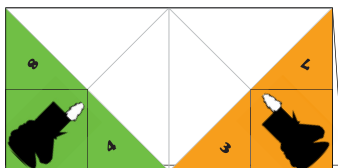

Fortune Teller Instructions

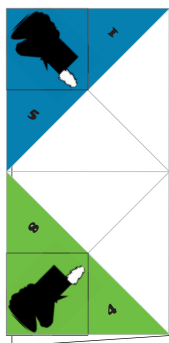

1. Print the fortune teller on an 8.5" x 11" (Letter) sized sheet of paper.
2. Cut out the fortune teller along the outside line. Do not cut any of the interior lines. The fortune teller should be a square when it is cut out.

3. Fold the square in half, vertically to create a crease.

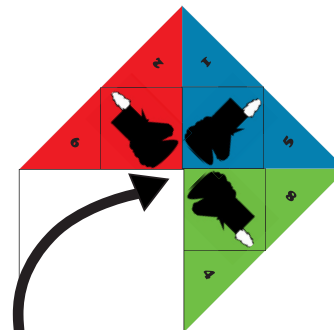

4. Unfold the square and fold horizontally to create a second crease.

5. Unfold the square again. You should now have both a vertical and a horizontal crease going through your square of paper.

6. Turn over the square of paper. Fold all 4 corners of the paper so that they touch at the middle intersection of the horizontal and vertical creases.

7. Turn over the square again. Fold all 4 corners of the paper so they touch at the middle intersection of the horizontal and vertical creases.

8. Fold the square in half either vertically or horizontally again, so that the 4 unicorn heads are on the outside.

9. Slip your thumb and index finger from both hands under the 4 flaps with the unicorn heads. Push the flaps up and out, while pushing the points of the fortune teller together. It will look something like this.

Your fortune teller is complete! Write some fortunes in the inside triangles and have fun!
